

April 2019 Campfire Program & Nature Walk Schedule

Sat., April 6th: Docent led nature walk of the “**Ricardo Nature Trail.**” Learn about various plants and their flowers along with the small animals and how they adapted to the harsh desert environment. Meet at the Ricardo Trailhead across from the visitor center at **2:00 pm.**

Sat., April 6th: Come and hear an historic presentation of the former “**Red Rock Railroad.**” This is a slide presentation about the temporary spur railroad built through Red Rock Canyon during the construction of the LA Aqueduct. Meet in the multipurpose room located in the visitor center at **7:00 pm**

Sat., April 13th: Docent led nature walk titled “**A Walk Through Time.**” You will gain information about weather changes, extinct and present wildlife, Native American uses of plants, and geological make up of Red Rock Canyon. Meet at the Ricardo Trailhead across from the visitor center at **2:00 pm.**

Sat., April 13th: “**Reading Stories in Stone.**” Discover the geological make up of Red Rock Canyon. Learn how the park was formed with the amazing colors you see. Meet in the multipurpose room in visitor center at **7:00pm**

Sat., April 20th: “**Beginning Birder Workshop**” - Begins at **9:00 am** in the visitor center. This will be a two-part program. The first part consists of training towards general recognition of birds and their calls. The second part will be two plus hours of going out and observing the various birds within the park. Participants can decide how long they want to tag along during the second part. It is highly recommended the participants bring binoculars and cameras. Because it may be warm - bottled water and a hat are recommended.

Sat., April 20th: “**The Many Colors of the Desert.**” This is a docent provided presentation as an introduction to the colorful plants and beautiful wildlife found at Red Rock Canyon State Park. Meet in the multipurpose room in visitor center at **7:00pm**

Sat., April 27th: Docent led nature walk of the “**Ricardo Nature Trail.**” Learn about various plants and their flowers along with the small animals and how they adapted to the harsh desert environment. Meet at the Ricardo Trailhead across from the visitor center at 9:00 am.

Sat., April 27th: China Lake Astronomy Club conducts a “**Star Party**” for viewing planets, constellations and other celestial objects in the night sky through some amazing telescopes. Meet at the visitor center parking lot area beginning at dusk.
